INTRODUCTION

A **meme** (/mi:m/ MEEM) is an idea, behavior, or style that spreads from person to person within a **culture**—often to convey a particular phenomenon, theme, or meaning represented by the **meme**.

Meme It is a web-based application that allows users to continue the meme monotony, this application allows users to create a meme, play with the text, make collages, or go with the existing template to showcase their artistic side.

Our team of Max Coder is really happy to announce the project completion because we believe the idea we got will also go well in the public community hence, we are building something real.

with ❤️
-Max Coder

DEVELOPMENT TOOLS

SYSTEM REQUIREMENTS

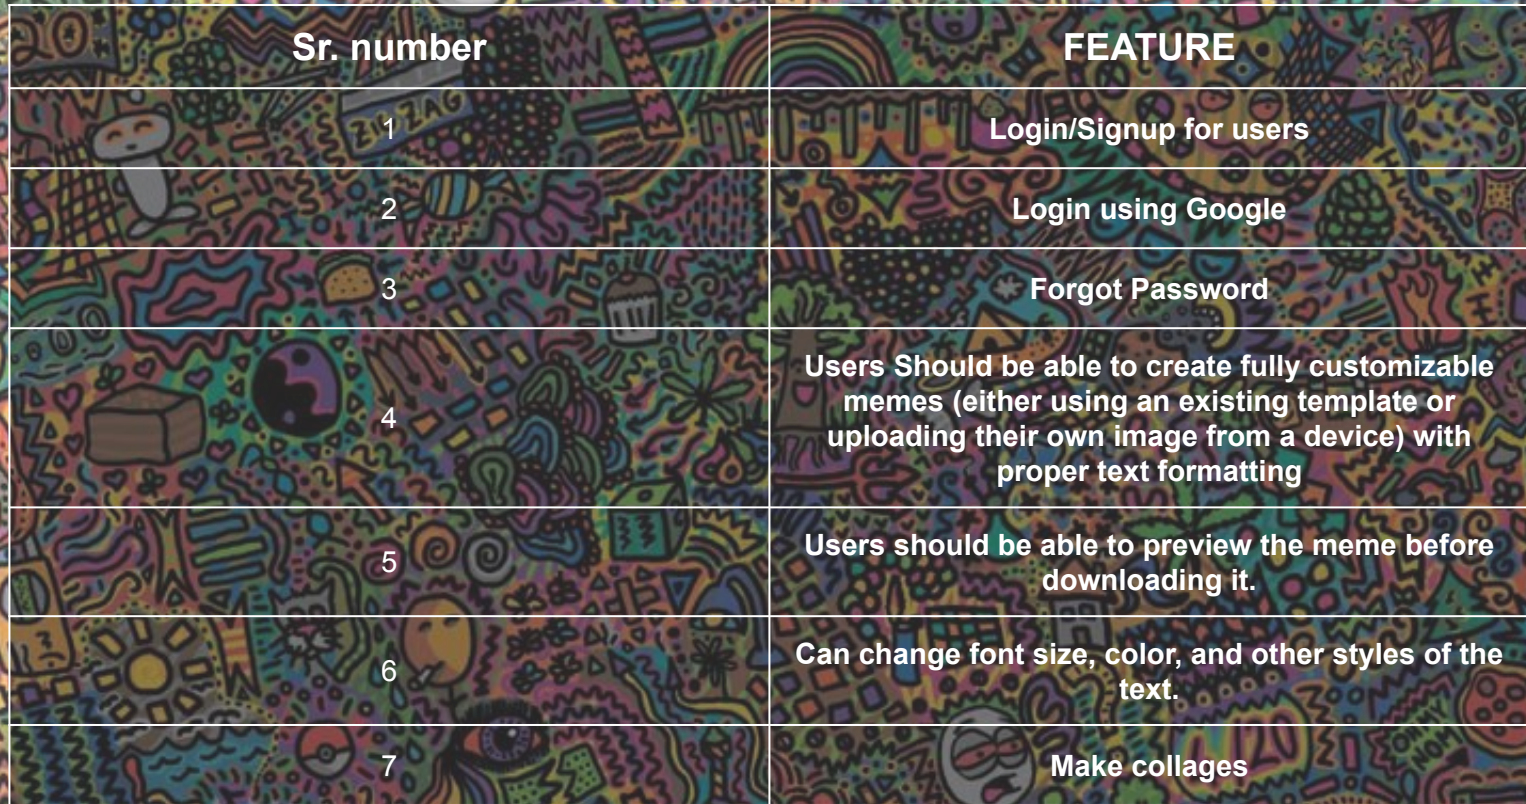

Firefox 38+
Opera 30+
Internet Explorer 10+
Edge 12+
iOS 9+
Safari 9+
Android 4.4+
